

Ordinate scales are % relative standard deviation and barns.

Abscissa scales are energy (eV).

Correlation Matrix

Ordinate scales are % relative standard deviation and barns.

Abscissa scales are energy (eV).

Correlation Matrix

$\Delta\sigma/\sigma$ vs. E for $^{107}\text{Pd}(n,2n)$

Ordinate scales are % relative standard deviation and barns.

Abscissa scales are energy (eV).

Correlation Matrix

Ordinate scales are % relative standard deviation and barns.

Abscissa scales are energy (eV).
