GNDS-1.9 publication and new NEA website

- OECD NEA has launched a new website and previous WPEC content is now located with URL redirects in <https://oecd-nea.org/download/wpec>
- GNDS-1.9 published May 2020
 - **DOI** 10.1787/94d5e451-en
 - **ISBN** 978-92-6490-197-1
- Available online in a few places:
 - NEA (new) website: <https://www.oecd-nea.org/jcms/pl...>
 - WPEC (new) website: <https://oecd-nea.org/download/wpec>
 - DOI takes you to OECD iLibrary (account required for access)

NEA GitLab upgrades

- NEA GitLab service is being upgraded
 - Improved architecture will allow more functionality (registry, 'pages', more CI)
 - User accounts will be synchronised with Active Directory
 - General harmonisation with existing NEA services and infrastructure
- Users will experience minimal disruption as part of this process
 - Usernames / passwords may change
 - All content and organisation will be maintained
 - Some downtime of the service (not HA at the moment)

Other points

- WPEC Subgroup 38 Requirements drafted and available for comments
 - Hosted on NEA GitLab SG38 space
 - Going through NEA publications process now but any points welcome
 - Contact C. Mattoon and M. Fleming for more information
- Training through NEA Computer Programme Services
 - AMPX training scheduled for 2021
 - Other training on codes or GNDS use and evaluation are possible
 - 2021 possible but will require NSD support
