

TERMS AND CONDITIONS FOR THE LICENCE

The Shielding Integral Benchmark Archive and Database Version 2 (SINBAD V2), Volume 1 (details given on SINBAD website <http://www.oecd-nea.org/SINBAD>)

1. Scope

- The NEA's mission is to, inter alia, assist its member countries in maintaining and further developing, through international co-operation, the scientific, technological and legal bases required for a safe, environmentally sound and economical use of nuclear energy for peaceful purposes. In doing so, the NEA collects and distributes software and data among its member countries through the NEA Data Bank, which is an international centre of reference with respect to essential nuclear analyses tools, such as computer codes and nuclear data. The NEA Data Bank provides a direct service to its participating countries by developing, improving and validating nuclear data libraries, databases and visualisation tools and making them openly available or available upon request.
- The Dataset is owned by the Owners who have granted the NEA the right to grant the present sub-licence.
- The NEA hereby grants a worldwide, non-exclusive, single-user, royalty free licence (hereinafter referred to as the "Licence") to the Licensee to use the Dataset for the exclusive purpose of research, education, industrial and commercial purpose, while the Licensee is affiliated with the Organisation and only for the provided Intended-use. Notwithstanding anything to the contrary, the use of this Licence is exclusively for peaceful purposes.
- No title or property right pertaining to the Dataset is transferred to the Licensee through this Licence.
- The Dataset shall be used by the Licensee only (single-user licence), according to the Intended-use specified by the Licensee. The Licensee is not entitled to grant sub-licences.
- The Licensee is not authorised to disclose, grant, assign, transfer, sell, rent or distribute any part or all of the Dataset to a third party.
- The Licensee is not authorised to make a copy of the Dataset, except for archive and recovery purposes. In the event of loss, the Licensee shall contact the NEA for a replacement.

2. Publications

- The Licensee shall cite and quote the SINBAD database (e.g. by reference to its website <http://www.oecd-nea.org/SINBAD>) in any publication according to good practices and at any conference that presents any work carried out with the Dataset. The Licensee is requested to inform the NEA of those publications and conferences (see contact information in Article 8).

3. Feedback

- The Licensee shall inform the NEA, of any errors or shortcomings detected, any inconsistencies between the Dataset and its documentation, any limitations found in its applications that are not reported in the documentation, any developments to be carried out, any improvements to be made to the Dataset allowing to address a wider range of problems; as well as any information on operations carried out.
- The Licensee is invited to declare any anomaly of the Dataset causing a total or partial inability to use the Dataset in accordance with this Licence to the NEA at the contact details mentioned in Article 8 hereunder.
- The Licensee is invited to provide feedback and to declare any alteration, modification or adaptation as required under Sections 2, 3 and 4 hereunder to the NEA for information, at the contact details mentioned in Article 8 hereunder.

4. Outputs and modifications

- Any output or derivative work generated from the use of the Dataset, and which no longer contains the Dataset, shall be solely owned by the Licensee. The Owners shall have no right to title or ownership on the output.
- Any alteration, modification or adaptation created by the Licensee, which is derived from and including all or part of the Dataset, shall be solely owned by the Owner and the Licensee shall have no right to title or ownership.

5. Guarantees

- The Dataset, and any accompanying documents, is provided "as is" without any warranty whatsoever, express or implied, and in particular without any warranty as to its commercial value, its secured, safe, innovative or relevant nature. To the best of the Owners' knowledge, the Dataset does not infringe the intellectual property rights of a third party relating to a patent or any other right of ownership.
- The Owners decline any and all liability for damages or incidents (in particular damage to the computer network, loss of opportunity, loss of profits and income, loss of data or other economic benefits, interruptions of activities) direct or indirect, accidental or otherwise, due to the use or distribution of all or part of the Dataset.
- Notwithstanding anything to the contrary, the NEA shall in no event be held liable for any direct, indirect, special, incidental, consequential, exemplary, or punitive damages of any character including, without limitation, procurement of substitute goods or services, loss of use, data or profits, or business interruption, however caused and on any theory of contract, warranty, tort (including negligence), product liability or otherwise, arising in any way out of the use of the Dataset, even if advised of the possibility of such damages.

6. Termination

- This Agreement shall enter into force on the date of signature of this Licence and will continue to be effective unless a party terminates it in accordance with this Section 6.
- Any use of the Dataset outside the scope of this Licence shall be deemed to constitute an infringement and a material breach of the Licence entitling the Owners of the Dataset to initiate judicial proceedings against the Licensee and to terminate this Licence with immediate effect.
- The NEA shall have the right to terminate this Licence with immediate effect in the event of default or improper performance of any of the Licensee's obligations, or in the event of termination of the Licence agreement between the Owners and the NEA.
- The NEA and the Licensee shall have the right to terminate this Licence at their convenience by giving ninety (90) days written notice to the other Party; the latter cannot claim any compensation as a result of this termination.
- Upon termination, the Licensee shall destroy their copy of the Dataset.

7. Settlement of disputes

- It is expressly agreed that any disputes between the Owners and the Licensee shall be dealt with between themselves directly. The NEA shall not be held liable, accountable or responsible for any damages or incident, direct or incidental, due to a breach by the Licensee; and shall not be involved in any disputes between the Owners and the Licensee.
- If judicial proceedings based on a patent, software, or any other third-party intellectual property right are brought against the Licensee on the basis of the use of the Dataset, the cost of such proceedings, as well as any judgment that may be pronounced against it, shall be borne by the Licensee alone, and the Licensee shall not be entitled to claim any indemnity whatsoever from the NEA or from the Owners of the Dataset.
- The Licensee shall notify the NEA of any act of infringement or unfair competition made by a third party as it comes to the Licensee's attention.

- In view of the fact that the NEA is an international organisation, it is expressly agreed that the rights and obligations of the parties shall be exclusively governed by this Licence. Nothing in this Licence shall be construed as a waiver by the NEA of the privileges and immunities it enjoys as an international organisation.
- The NEA and the Licensee will first engage in amicable negotiations to settle any dispute relating to the interpretation or application of this Licence.
- If the NEA and the Licensee are unable to reach an amicable settlement in accordance with the above paragraph, any dispute, controversy or claim arising out of or relating to this Agreement, or the breach, termination or invalidity thereof, shall be settled by arbitration in accordance with the PCA Arbitration Rules 2012. The number of arbitrators shall be one. The language to be used in the arbitral proceedings shall be English. The place of arbitration shall be Paris (France). The NEA and the Licensee expressly renounce their right to seek the annulment or setting-aside of any award rendered by the arbitral tribunal, or if this renunciation is not legally possible, the NEA and the Licensee expressly agree that if an award rendered by the arbitral tribunal is annulled, the jurisdiction ruling on the annulment proceedings cannot rule on the merits of the case. The dispute will therefore be settled by new arbitral proceedings in accordance with this clause.

8. Contact and technical support

For all feedback, the Licensee is requested to contact the NEA directly:

OECD Nuclear Energy Agency
NEA Secretariat for the Working Party on Scientific Issues and Uncertainty Analysis of Reactor Systems (WPRS)
Email: wprs@oecd-nea.org

The Licensee's contact information as set out in this Licence may be shared with the Owners of the Dataset. As an independent intergovernmental organisation, the NEA is not subject to any national or regional legislation, but only subject to the OECD Data Protection Rules. The OECD is the controller of the Personal Data and will comply with the OECD Data Protection Rules (<https://www.oecd.org/general/data-protection.htm>).
