

## Nuclear Supply Chain: Assurance Today, Confidence Tomorrow

The OECD Nuclear Energy Agency, Working Group on Supply Chain, will hold an international workshop on nuclear supply chain management, with participation of the IAEA and World Nuclear Association.

### The workshop will be structured in four sessions:

- Supply chain management: risks and challenges
- What are the new challenges for small modular reactors?
- How to improve quality delivery?
- Organisation culture to enable safe and reliable delivery

The registration deadline is 31 January 2024

### Purpose & Objectives:

To influence forward supply chain oversight activity of regulators, standard development organizations (SDO) and industry.

Examine the forward risks and opportunities the industry will need to address, to ensure safe and reliable operations.
