

**Conditions for Release, Rules and Restrictions Applying to the
CHF Benchmark Exercises – Phase 1
of the OECD/NEA Task Force on Artificial Intelligence and Machine Learning
for Scientific Computing in Nuclear Engineering**

The benchmark specifications and other information are released under the following conditions:

- The data and information is exclusively released to participants in the benchmark study.
- Recipients agree not to make copies of the information and not to further distribute or sell it to third parties.
- Recipients agree to provide feedback on deficiencies or errors they may find in the data.
- Recipients agree to inform the benchmark organizers before publishing any study results for which the information has been used.
- Recipients agree to provide NEA with output results from their analyses as specified in the benchmark. The results will be made available on the protected benchmark participants' area of the NEA website, and will be compared to other results in restricted meetings in the framework of dedicated benchmark workshops.
- Participants agree that delegates have access to the benchmark working area.

DISCLAIMER

Neither the Organization for Economic Co-operation and Development nor any person acting on behalf of the organisation assume any liability with respect to the use of, or for damage resulting from the use of the data and information released.

I agree to these conditions:
