

**Conditions for Release, Rules and Restrictions Applying to the
Thermal Hydraulic Code Validation Benchmark
for High Temperature Gas-Cooled Reactors using HTTF Data
(HTGR T/H)**

The data and other experimental information are released under the following conditions:

- The data and information are exclusively released to participants in the HTGR T/H Benchmark Study and you are from an eligible OECD member country.
- Recipients of the data will use it exclusively for model and code improvements for thermal-hydraulics simulations including uncertainty analyses in modelling.
- Recipients agree not to make copies of the information and not to further distribute or sell it to third parties.
- Recipients agree to provide feedback on deficiencies or errors they may find in the data.
- Recipients agree to inform the benchmark organisers before publishing any study results for which the HTGR T/H benchmark data have been used.
- Recipients agree that delegates have access to the benchmark working area

DISCLAIMER

Neither the Organisation for Economic Co-operation and Development nor any person acting on behalf of the organisation assume any liability with respect to the use of, or for damage resulting from the use of the data and information released.

I agree to these conditions:
